COMMUNITY TECH AID *Tech help that doesn't make you feel stupid.*

Kelly Guzman

Security Analyst · SOC / GRC / Incident Response

Spokane–Coeur d'Alene Region · Remote · 208.518.8816
greetings@ebizmarket.net · github.com/ebizmarket · communitytechaid.tech

PROFILE

Security analyst with hands-on training across SIEM, IDS, Linux, SQL, and Python, plus a decade of field technology operations including federal contract work. Owner-operator of eBiz Market, LLC, delivering technical services end to end — assessment, deployment, security hygiene, and user support. Focused on SOC, incident response, and GRC roles.

CERTIFICATIONS

- Google Cybersecurity Professional Certificate — 2026 (nine-course program: Linux, SQL, Python, SIEM, IDS, NIST CSF, incident response)
- Google AI Fundamentals — 2026
- ISC2 Certified in Cybersecurity (CC) — Official self-paced training completed
- CompTIA Network+ Accelerated Program (40 hours) — Training Camp
- CompTIA ITF+ — CertMaster Learn

TECHNICAL SKILLS

Detection & Response	Splunk · Chronicle · Suricata · Wireshark · tcpdump · IDS · SIEM workflows
Frameworks	NIST Cybersecurity Framework · NIST RMF · Incident response playbooks · CIA triad
Systems	Linux (CLI, user management, permissions) · Windows · macOS
Data & Scripting	SQL · Python (beginner) · Bash basics
Networking	TCP/IP · Network architecture · Wireless · Cloud network basics
Operations	Endpoint troubleshooting · Remote support (Zoom, Teams, AnyDesk, GoToAssist) · Ticketing & documentation
Tools & AI	Adobe Creative Suite · Self-hosted LLM deployment · Prompt engineering

EXPERIENCE

Owner / Lead Technician · eBiz Market, LLC · Community Tech Aid

Remote & On-site · Current

- Run technical operations end to end: client systems, networking, endpoint security, recovery preparation, and security hygiene consulting.
- Built and deployed a self-hosted LLM platform supporting client intake and triage.
- Manage six domains via Cloudflare; operate Brevo and Proton-based business communications stack.
- Authored educational content on social engineering, phishing, and account security for non-technical users.

Contract Field Technician · USPS Device Upgrade · Verizon Modification (Federal Contract)
Washington / Idaho

- Independently executed federal device upgrade rollouts under compliance requirements.
- Managed scheduling, on-site configuration, and verification across multiple postal facilities.

Field Technician (Approved Buyer) · Field Nation · WorkMarket
Multi-vendor enterprise deployments

- On-site retail and enterprise rollouts including ROSS Stores, Kohl's, and Joann Stores.
- A/V installation, hardware deployment, and post-install troubleshooting.

Field Operations Supervisor · U.S. Census Bureau
Federal field deployment

- Managed 15 field pods with personnel, scheduling, and equipment for federal census operations.

COMMUNITY INVOLVEMENT

Chief Polling Judge · Kootenai County Elections
2021 – 2024

- Supervised polling site operations, chain-of-custody for ballots and equipment, and poll-worker coordination across multiple election cycles.

Founder · North Idaho Astronomy Club · Registered Nonprofit
First registered nonprofit astronomy club in North Idaho

- Founded and registered the organization, established bylaws, and built the operating structure from zero.

PORTFOLIO & PROJECTS

GitHub: github.com/ebizmarket/cybersecurity-portfolio

- Incident response case studies using the NIST Cybersecurity Framework
- Linux fundamentals: user and permission management, command-line operations
- SQL queries for security log analysis
- Threat detection labs: Suricata IDS, Splunk and Chronicle SIEM workflows
- Network security analysis: Wireshark, tcpdump
